

October 2003

October Meeting

The October meeting will be held at the Dept. of Game & Inland Fisheries Building, 4010 West Broad Street at 7:00 pm, Tuesday, October 28th. The entrance and parking are at the rear of the building.

October Program Topic – “Talking Trash”

Call them freshwater billfish, grindle, mudfish or trash fish. Whatever you choose to call gar and bowfin these two locally abundant species offer some challenging fishing and deserve more respect from anglers. At least two of our members have spent many hours learning to catch these fine game fish and will share some of their techniques at our October meeting. Just a few seasons back we all thought taking a gar on a lure was an accident, Scott Johnston now takes them on fly! (he claims they are all caught in the mouth). Eddy Johnston loves to fish for bowfin and has made some great catches. The Eddy and Scott show at the October meeting should be a lot of fun and a good chance to learn some good techniques. Don't miss it!

Backlash (Commentary from the President - John Wetlaufer)

The Virginia Anglers Club just doesn't happen. A dedicated group of 20 men meet monthly as Directors, Officers and Committee Chairmen to keep the club moving along. They set and monitor the budget, put together the programs for the monthly Membership Meetings, process and put on orientation of new members, originate, shape and approve club policies, modify the by-laws when needed, gather information for the newsletter, receive and distribute club funds, and they conduct the necessary administrative tasks like writing the minutes of the Board Of Directors' monthly meetings. All in all, there are 7 club officers, 9 club directors and 12 committee chairmanships. If

you do the math, you can see some folks are doing double or triple duty.

The club Nominating Committee is starting their work to form the slate of officers for the 2004 Angling Year leadership team. If you are interested in being part of the group that keeps the Club moving along, please let John Wetlaufer, Sr., chairman of the Nominating Committee know of your interest. New faces are always welcome on the leadership team. The BOD meeting is held on the 2nd Tuesday of each month at the Peoples' Bank building, Interstate 64 and Parham Road.

The Country Store will have another special sale at the October Membership Meeting. Storekeeper Eddy Johnston has come with another special deal. Coveted VAC hot/cold mugs will be available at the ridiculously low price of \$2.00 each! These mugs make wonderful gifts and are not available at the recently opened “up scale” malls. Not only are the mugs a special deal, but also a few original mesh style VAC hats are left and will be available at the equally ridiculous price of \$1.00 each. Remember, if you want to special order VAC long and short sleeve “T” shirts and golf style shirts, Eddy is the man to see. Special orders and purchases from current stock are equally welcomed at the Store.

The Virginia Anglers Club surf fishing team representing the VAC in the Cape Hatteras Anglers Club Invitational Surf Fishing Tournament is one man short at the moment. One member had to drop out to take care of some extensive hurricane damage to his beach home. Our club has had a team in this tournament since the tournament was started. The tournament is held at Cape Hatteras on November 6th and 7th, 2003. Lodging is courtesy of a team member at no cost. If you have an interest to join the team, please contact Lynn Spurlin, 282-7992. He can fill you in on more

Continued on page 2.

Continued from page 1.

details. Don't worry about the ride on the beach. You can buddy up with a team member who has a 4 x 4 if you don't have one.

Finally, there will be copies of the current membership roster at the October Membership Meeting. Some of you may not have been present to pick up the latest revision at the August meeting.

Finally, I appreciate your understanding with the last minute cancellation of the September Membership Meeting. Fred Murray and I waited to the last minute, hoping that power would be restored to the East DGIF office building. Lawrence Ritter, the speaker making his second attempt to come and be with us, was standing by in Virginia Beach and ready to come at the last minute if power was restored. Member Gary Martel, DGIF Fisheries Chief, was in contact with us during the day from the main office which had power. Unfortunately, power was not restored and we cancelled at the last minute. A message was immediately sent out on the VAC e-mail distribution and phone calls were made. I apologize if we missed anyone and a trip was made to the dark building.

Remember to let me know if you are interested in being a club officer or a chairman of a club committee. I have job descriptions that I can e-mail for all offices.

Regards and tight lines,

John

CATCHY COMMENTS

by Dennis Cline

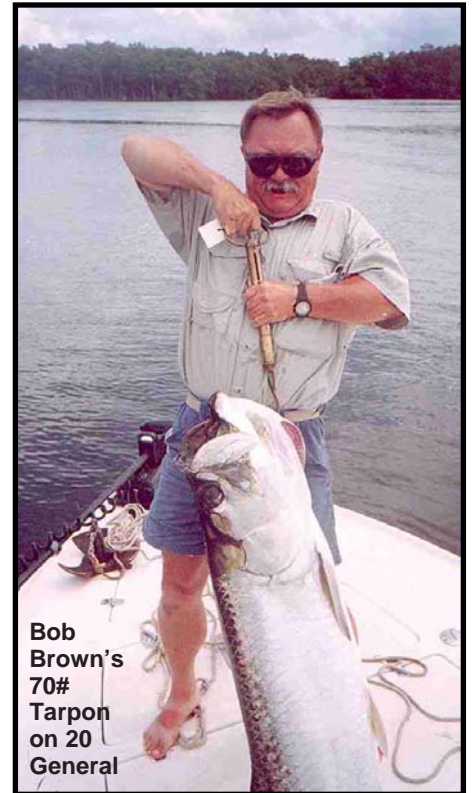

Not much to report this month thanks to hurricane Isabel! What a bitch she was! A lot of members suffered storm damage of some degree and most of us lost power for one to two weeks. For the first time in my few years as a member, we cancelled a membership meeting. For the most part, our rivers have been unfishable. The bay and ocean recovered more quickly and produced a few fish for those lucky enough to be able to take a break from the carnage and cleanup.

Pre-Isabel catches rescued from the club mailbox include a pair of amberjacks for **Fred Cousins**. Fred's best was a 23-0 on 8-spin that scored 255 points. **Larry Allen** entered a nice speckled trout on 2-spin that weighed 5-0 and scored 333 points. **Rich McDaniel** released a flathead that went 18-0 on 12 general for 163 points. **Dr. Jim Wright** turned in the first local billfish release for a white marlin caught on 30 general. Dr. Jim also entered a pair of croakers weighing 2-0 and 3-0 caught on 4 and 12 general.

Since the hurricane, the only local entries have been a 2-8 triggerfish on 12 general for Dr. Jim and several red drum released by **Fred Murray** and myself. **Bob Brown** traveled to Florida to release a nice 70-0 tarpon on 20 general. **Scott Johnston** escaped to Michigan to fish for Chinook salmon and entered an 8-4 on 6-fly.

Red drum in the Eastern Shore surf may have been the highlight of post-Isabel fishing, at least for a couple of club members. In a span of six days (10/4-10/9), nine large drum were released that ranged from 30-0 to 49-0 as well as a dozen puppies in the 5-8 pound range. Fred Murray released a 43-0 and I released three over forty pounds, with the largest a 49-0. Hopefully, fishing will improve and more of our members can take a break to enjoy some fall fishing!

Bob Brown's 70# Tarpon on 20 General

Karen Rountrey (Park's wife) with a nice Sheepshead (you takin' notes Parks?)

Angler of the Month Notice

Due to the cancellation of the September meeting, we will have two Angler of the Month contests at the October meeting. The September contest will honor catches made from August 27th through September 23rd. The October contest will honor catches made from September 24th through October 28th. So, be sure to bring your duplicate cards for any fish caught during those periods. I will have my entry book and blank cards at the meeting in case you can't remember what you caught.

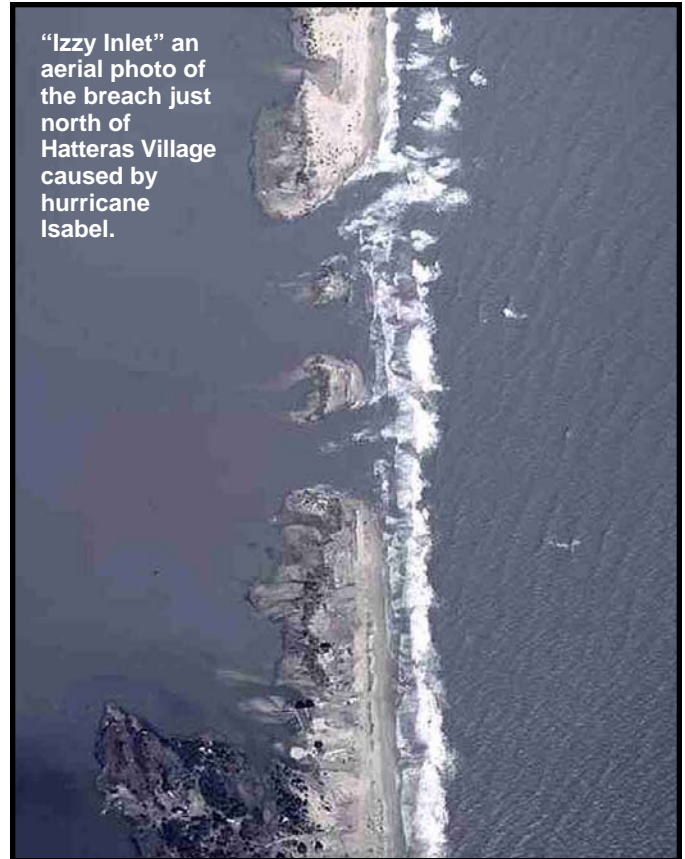

Sportsmen of Virginia.... CHECK IT OUT!!

Be sure to check out the Sportsmen of Virginia website. Joining the group is done by logging on to www.communityzero.com/sportva. Click on "Preview" to look the site over and click on "Join" to join. Your e-mail address is held in confidence and is not shared in any manner.

The focus of the site is to keep you informed promptly of legislation, etc. of interest to sportsman. The site provides Discussion Groups, Calendar's, Lists and Links of interest to sportsmen and automatic e-mail notification of legislation, hearings, news, etc. that may effect your outdoor activities.

With a few keystrokes, you can call up a blank e-mail addressed to members of the General Assembly who represent you or any other member with whom you wish to communicate. Your voice can be heard on Capitol Hill very easily.

There is no cost to you become a member of Sportsmen of Virginia. "Communityzero" is the name of the software package used by the Sportsmen of Virginia web-site. That is why it appears in the e-mail address.

"Izzy Inlet" an aerial photo of the breach just north of Hatteras Village caused by hurricane Isabel.

Boat Smart! - Know Before You Go

- ✓ Cold water chills 25 times faster than cold air. (This is the reason that a person feels numb within a few seconds after falling in to cold water.)
- ✓ The three leading causes of boating fatalities are:
 - 1st: Capsizing
 - 2nd: Falls overboard
 - 3rd: Collisions

Coastal Conservation Association Virginia

NCMC Menhaden Petition

Coastal Conservation Association Virginia (CCA VA) applauds the National Coalition For Marine Conservation's (NCMC) petition requesting the Atlantic States Marine Fisheries Commission (ASMFC) prohibit all purse seine fishing for Atlantic menhaden within the Chesapeake Bay and its tributaries.

For over 10 years, CCA VA has been increasingly alarmed over declining menhaden populations in the Chesapeake Bay. Menhaden stocks are at or near record low levels at the same time striped bass stocks are high and bluefish and gray trout stocks are growing; the lack of this primary forage species for these and other fish is a critical problem.

Striped bass is the most economically important fish on the East Coast, contributing over \$180 million to Virginia's economy alone. Bluefish and gray trout add almost \$100 million more and the stocks are growing. A continued shortage of menhaden in the bay threatens the future of this economic activity.

CCA VA plans to clarify whose responsibility it is to manage menhaden in Virginia by working to have a bill introduced in the legislature to move control of this valuable resource to the scientific management of the Virginia Marine Resources Commission. CCA VA is also working with other East Coast CCA states to have ASMFC address menhaden problems in its coastal menhaden management plan.

The current menhaden management plan does not provide

any allowance for menhaden's historical role as the Chesapeake Bay's primary forage base or importance as filter feeders. The plan only manages for maximum sustainable yield to the menhaden reduction fishery. The current plan also does not consider localized shortages such as the current Chesapeake Bay depletion. Since the industry is based in Reedville, inside the bay, 70% of their total coast wide harvest comes from the bay or nearby waters seriously diminishing the bays current forage base and exacerbating the water-quality crisis.

CCA VA Chairman John Bello says, "Continued scarcity of menhaden in the bay threatens the continued recovery of fish stocks that so many have made sacrifices to restore. Even though CCA VA is working on solutions from different angles, the NCMC petition if successful will provide immediate relief to the shortage. CCA VA supports any effort that helps."

CCA VA fishery management Committee Chairman Chris Moore adds, "What happens to one fish affects what happens to others. Managing menhaden for just commercial harvest while ignoring its affect on other economically important species is a recipe for disaster. Hopefully, we are not too late and efforts by groups such as NCMC will help."

Coastal Conservation Association Virginia exists to Conserve, Protect, and Restore the marine resources of the Chesapeake Bay and our coastal waters for ALL Virginians.

If you would like to learn more about the NCMC organization log on to <http://www.savethefish.org/>

Check out CCA VA website as well at <http://www.ccavirginia.org/>
