FISHERY RESTORATION SUBJECT OF OCTOBER PROGRAM

Thanks to Fisheries Biologist Steve Reeser from the VDGIF who spoke at the October 27th Membership Meeting. Steve spoke about the remediation work to overcome the acidification in the St. Mary’s River and how this work overcame the challenges of working in a Wilderness Area (no motorized equipment, helicopter delivery of lime stone sand, hike in to view and service monitoring stations, etc.). Steve will willingly answer questions about fishing west of the Piedmont region of Virginia. You can reach Steve at Steve.Reeser@dgif.virginia.gov.

VAC EXPEDITION – TROUT FISHING THE SOUTH RIVER IN WAYNESBORO, VA – OCT. 24

(No One Took Part)

2016 TOURNAMENT AND EXPEDITION SCHEDULE WILL COME OUT IN DECEMBER

Angling Activities Chairman Andrew Campbell and Expedition Leader Mike Ostrander are working to combine Tournament and Expedition activities into one consolidated schedule. The combined schedule will come out in mid-December via E-Cast and The Angler. There are no Tournaments or Expeditions scheduled for December.

TOURNAMENT AND EXPEDITION PARTICIPATION, CARD SUBMISSION DISAPPOINTING IN 2015

The Leadership Team is very concerned about the general decline in participation in VAC Tournaments and Expeditions in 2015. Some of these activities experienced no participation by Members. The record of 2015 tournament participation can be found on page 6 of this issue of The Angler. Statistically, entry card submission (even with the convenience of the new E-Card) was about 20% lower in 2015 vs. 2014. Compared with the 2000 average submission of entry cards per member of 2.8, entry card submission per member was 0.8 or about 30% of the base year.

Please take a moment to do a “reply” to the E-Mail that brought you the copy of The Angler and let the Leadership Team know why you did or did not participate in these activities. Also, any changes you would like to see in this area of the VAC will really be appreciated. The Leadership Team needs input from all Members so we can plan activities that will appeal to all. Thanks in advance for your help.

THE ANGLING RULES COMMITTEE – NO ANGLING RULE CHANGES FOR THE 2016 ANGLING YEAR

Chairman Stuart Lee received no suggestions from Members for changes to the Angling Rules. The Angling Rules Committee saw no need to change any Rules for 2016 either.

FIRST CARD SUBMITTED BY NEW MEMBER = CLUB RECORD!

So there you are, New Member Tyler Shands, enjoying the day fishing at a Wyndam Lake and targeting Crappie on 2# spin tackle. Your Crappie plans are shattered by the hookup and landing of a Redear Sunfish. Send in an E-Card? Gotta do the first one sometime so why not now? It paid off for Tyler. Tyler’s 1-0 153 point Redear on 2 lb. spin beat the standing record Redear on 2# spin set by Billy Nicar on June 15, 2015 (0-14 = 135 pts.). Seven – eleven is lucky for a craps shooter and the date 7-11 was lucky for Tyler also. Congratulations, Tyler. Beware, Billy, the bar is moving up.

2016 VDGIF OUTDOOR CALENDARS SOLD OUT

Chairman Don West reports that all calendars were sold by the early part of November. Special thanks to Don for again leading this annual calendar program for the VAC and to all who purchased or found buyers for these calendars. The VAC netted \$750 from this program.

ENHANCEMENT COMING TO THE CATCH DATA BASE

When you enter the Member's Area of the VAC web site and do a search of the catch database, there was no way to know when the catch information selected comes up which of the catches is a standing club record. Webmaster Johnny Wetlaufer has started a software enhancement that will eventually place a small icon of a gold trophy cup by each catch that is a standing club record in the catch data base.

If you want to see what the notation will look like, go to "Catch Entries" and open "search all catches (catch data base)". On the first catch record page that comes up, look for the gold trophies. Right now, the gold trophy marks standing Club records of entries caught in 2015 only. Johnny will eventually expand this enhancement to cover all catches in the data base.

(Don't confuse the Catch Database with the tables of Basic Weights or the "Catch Records" on the home page of the web site.)

“Catchy Comments”

By *Stuart Lee*

Entries from club members continue to be few and far between. Will Mosley did have some recent success in Little Creek Reservoir where he caught a variety of nice fish including Yellow Perch, Crappie, and Channel Catfish.

When I think about fall, I think of falling leaves, college football, Thanksgiving, and rockfish, but not necessarily in that order, Rockfish are something that I have fished for in the fall for most of my life. I like to catch them; I like to eat them, and I like being on the water at this time of the year. I started in the late 1950's trolling in an 18-foot wooden skiff with my dad in the mouth of the Rappahannock River with a Barracuda spoon with a piece of pork rind. We would chase the gulls. We did not catch a great number of fish, but I thought it was wonderful. In the early 1960s, we got a bigger boat which allowed us to expand our range into the Bay, and we fished from Wolfrap Light to Smith Point Light and over to Tangier Island. I remember thinking at that time how huge a body of water the Bay was. There were plenty of fish during this period, and we hunted flocks of gulls and trolled using small 1/0 & 2/0 bucktails (Parrots, Eight Balls, Sea Nymphs and Smilin' Bill's). When my dad thought I was old enough, I graduated from an outfit with mono line to a wire-line rig which was much more effective.

About 1966, we started moving our boat to Lynnhaven from Deltaville just before Thanksgiving to fish for the big migratory fish. We trolled around the bridge-tunnel, the Virginia Beach oceanfront, and in the mouth of the Bay with much larger lures (Alou eels, Creek Chubs and big No Alibi bucktails), and we caught a much larger class of fish. It was at this time that I had the opportunity to fish some with Pete Ambrose and Whistle Henderson, who were among the best Bridge-Tunnel wire-line fishermen of their era. They knew what spot to fish given the wind and tide, and their boat handling was amazing. They were truly gifted fishermen and also great guys.

I would like to point out that at this time rockfishing in the mid-Bay was pretty much over by December 1 and rapidly winding down at the mouth of the Bay. It was much colder than it is today. Compare that to last fall when the majority of the big migratory fish never made it south to Virginia waters until their spring spawning run.

The rockfish pretty much disappeared in the late 1970s, only to reappear in force in the late 1980s. During this period, I had abandoned trolling as I preferred jigging, casting, or fly fishing, and fishing during this period was at times unbelievably good. It started to taper off in Virginia in the mid-1990s, some of which could have been due to the fish stopping farther north each year.

The rockfish are still around, though not as plentiful and not as big as they once were. I still like to fish for them and only hope that when they make their next reemergence; I am able to chase them.

Lastly, I am looking forward to our November speaker, George Beckwith, who fishes mostly out of Oriental, North Carolina. He is a very innovative fisherman who catches more than his share of big drum and was instrumental in perfecting the rig that allows for the safer release of these large old fish. George catches lots of other species, including tarpon, and also offers fishing opportunities in Costa Rica. I think we are in for a very interesting program. I hope to see you there.

Stuart

SCOTT JOHNSTON THANKS VAC FOR ELECTION TO HONORARY MEMBERSHIP

The following thank you note was received from Scott Johnston in reply to his election October 13, 2015 to Honorary Membership:

VDGIF REQUESTS NIGHTTIME CATFISHING INFORMATION VAC MEMBERS URGED TO HELP WHERE THEY CAN

The VDGIF is trying to gain more information into catfish anglers on the James and Chickahominy Rivers. The VDGIF is conducting two creel studies – one on the James, the other on the Chick. If VAC Members would like to help the VDGIF improve their knowledge with firsthand information from nighttime catfishing trips, Eric Brittle, VDGIF Fisheries Biologist, has provided a link (below) that will allow you to enter each nights catch when you are out catfish fishing. Remember, a trip that results in no fish caught, is still valuable information for the VDGIF.
